

Blockchain games are fantastic, but the entire ecosystem is now centered on "play-to-earn" and "the metaverse." The Metaverse is a virtual world where users can exchange digital items, information, or value. It's all about bringing together various virtual worlds under one umbrella: the Metaverse

The Metaverse is a concept of a persistent, online, 3D universe that combines various virtual spaces. Consider it a future iteration of the internet. Thanks to the Metaverse, users will collaborate, meet, enjoy, and socialize in these 3D spaces.

We are Meta Race Winner - We are a Racing NFT game that will enter the Metaverse in VR. We are a virtual play-to-earn game that will be played in the Metaverse.

Players can collect virtual cars, fuels, and other car parts in this blockchain game. Each part is a unique non-fungible token and can be collected, traded, used, or sold individually. Meta Race Winner already has some legendary vehicles, but the majority of the cars are simply common cars. However, players can upgrade their cars using MRW tokens.

The upgrade system starts with the collection metadata tag from each car, for example, Holder, Ignition, Sprint King, etc. Then, each category will have a preview defining what the car can ultimately become.

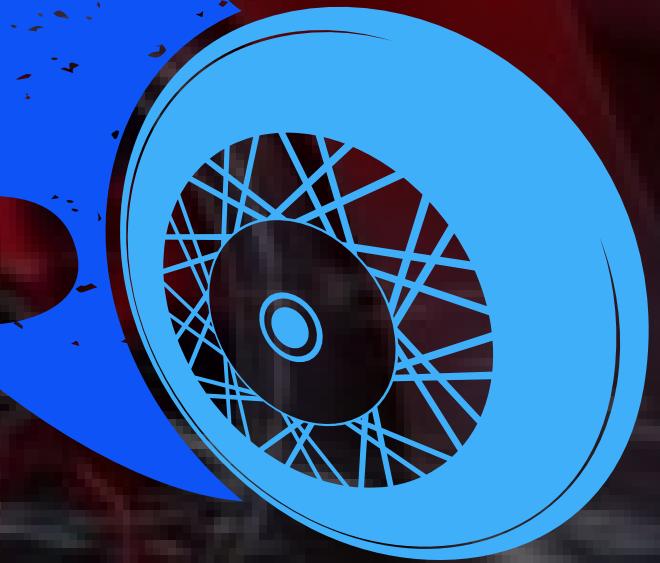

Competitive racing will be a core element of Meta Race Winner. Each car has its characteristics. The factors influencing the car's performance are acceleration, grip, top speed, and luck. Unfortunately, the races are currently shown top-down and have limited gameplay options.

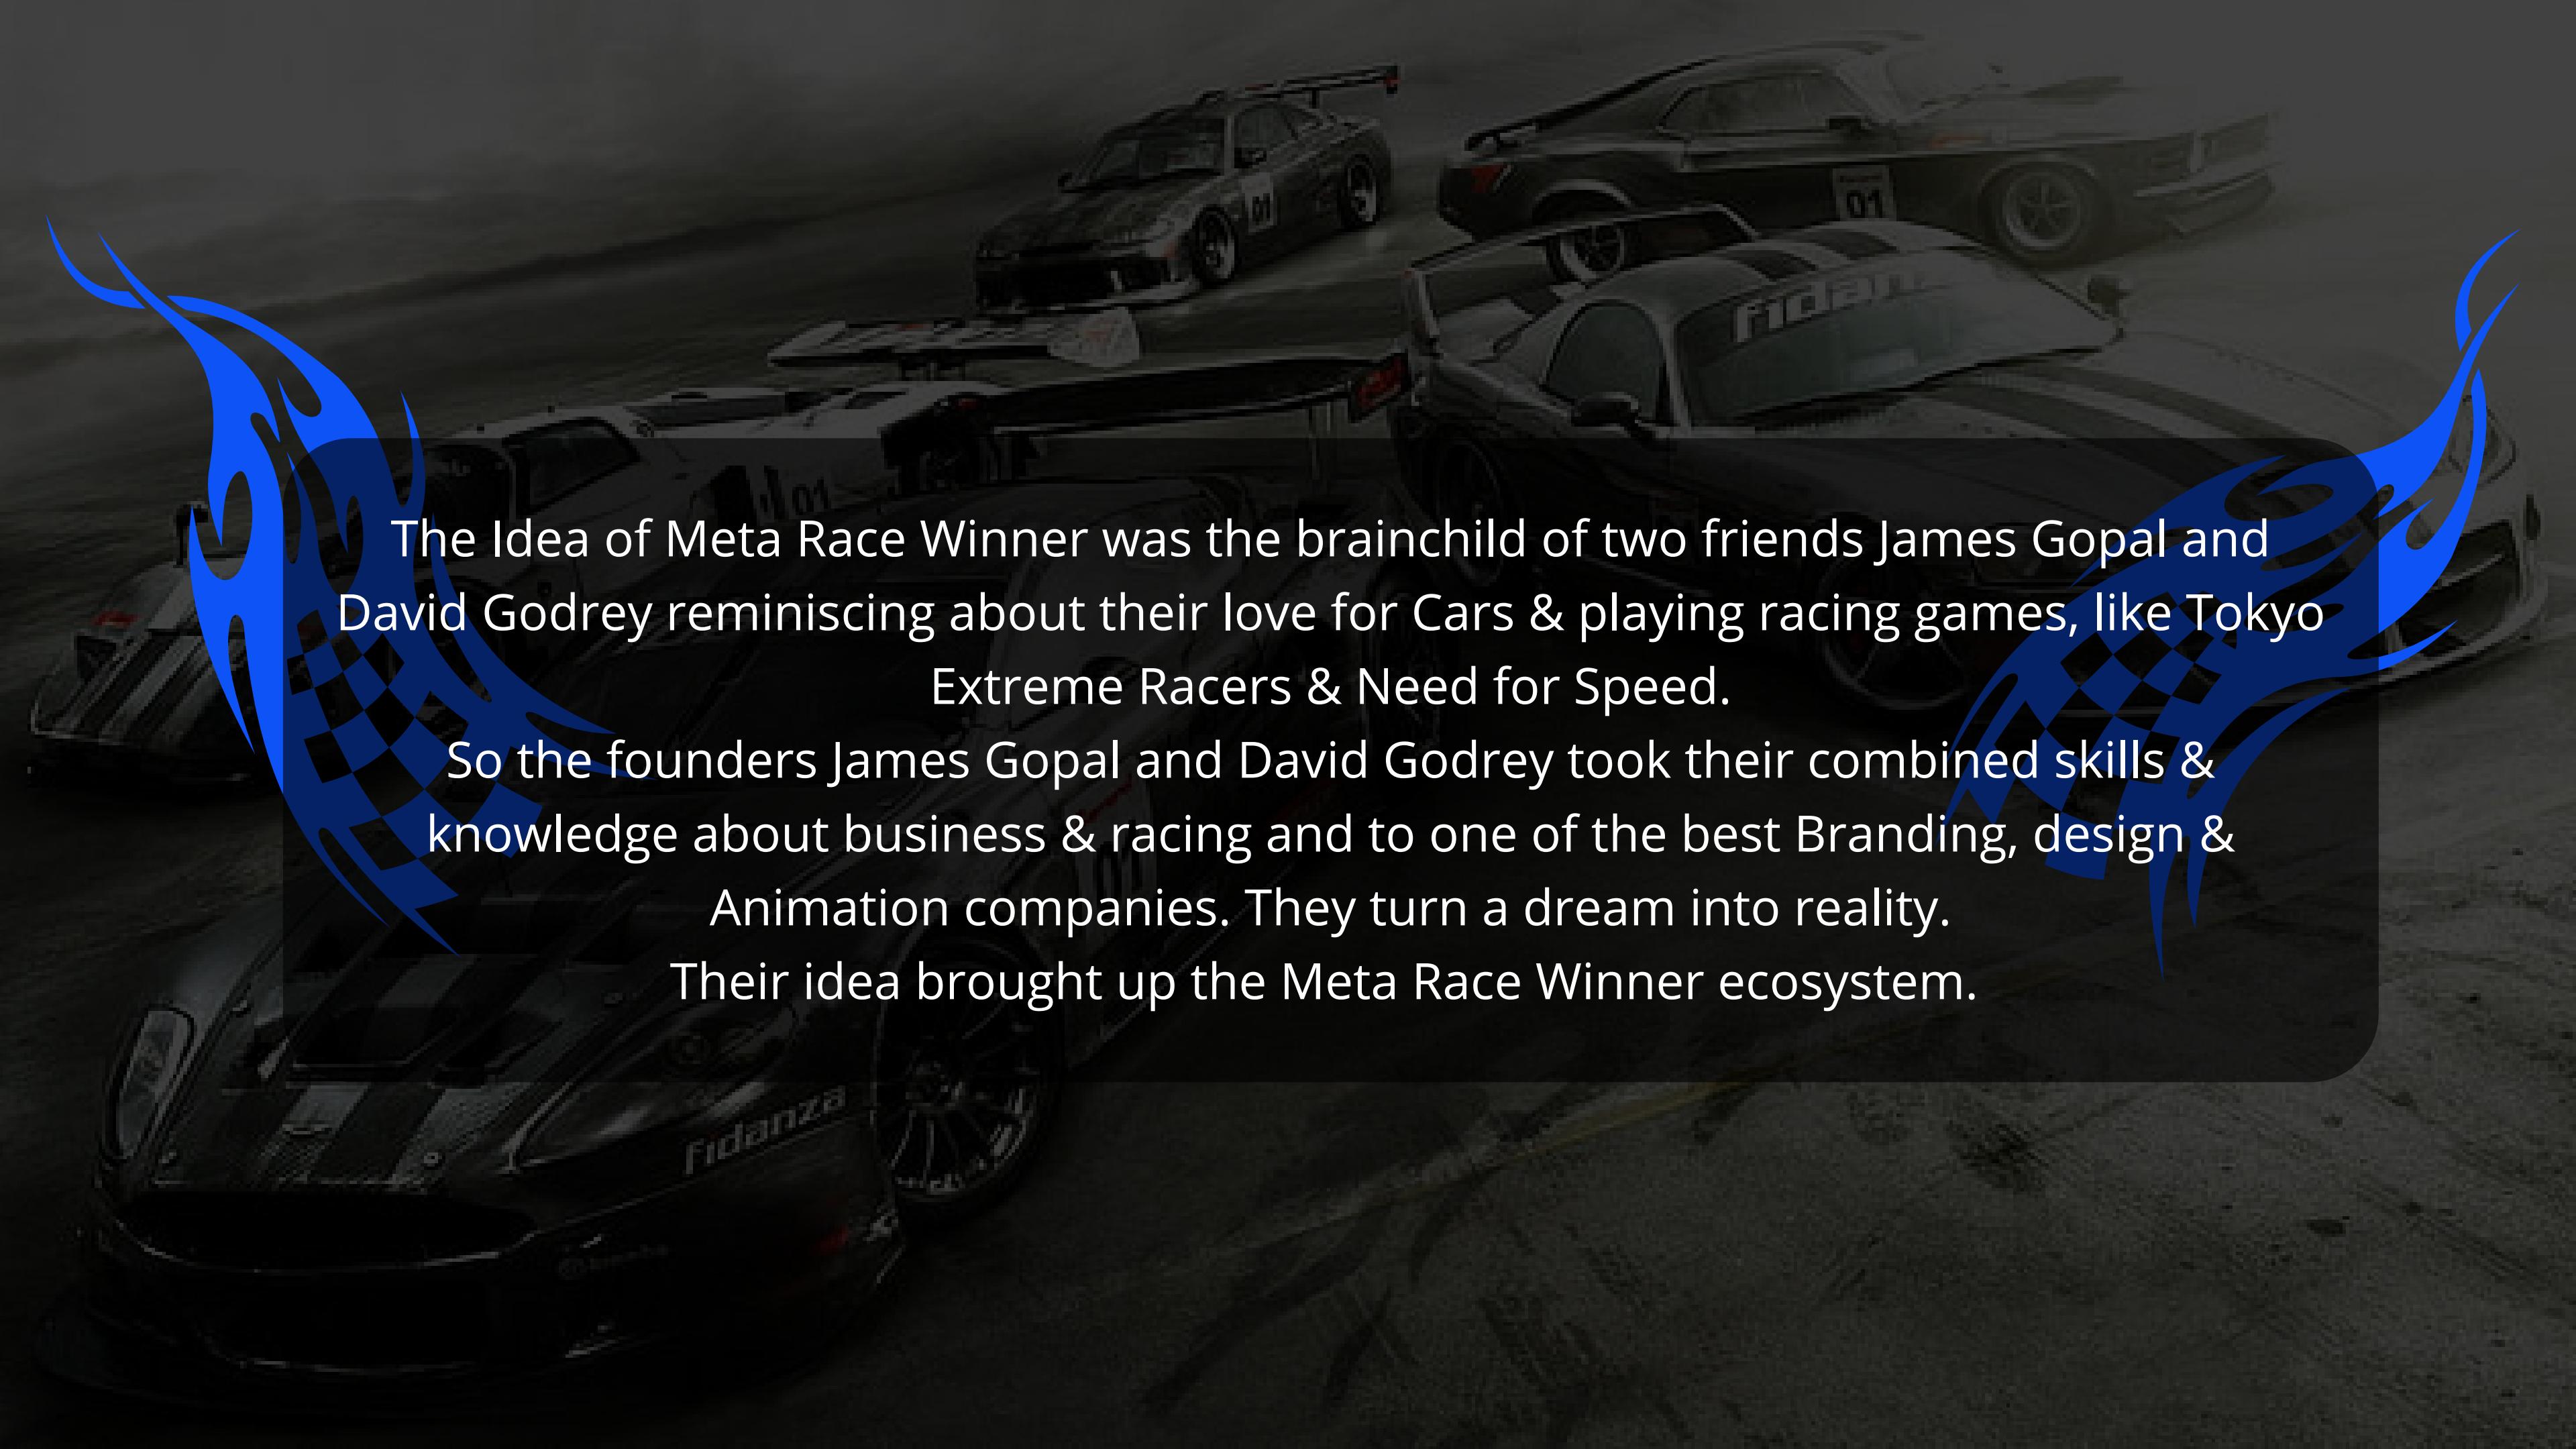

The Racing Game provides players with tracks from the official Formula One season that can be accessed through your browser or mobile app. Before the final race, players compete head-to-head in qualifying sessions. Car and fuel composition are critical, as they can have their ultimate in unique pairs.

ABOUT OUR GAME

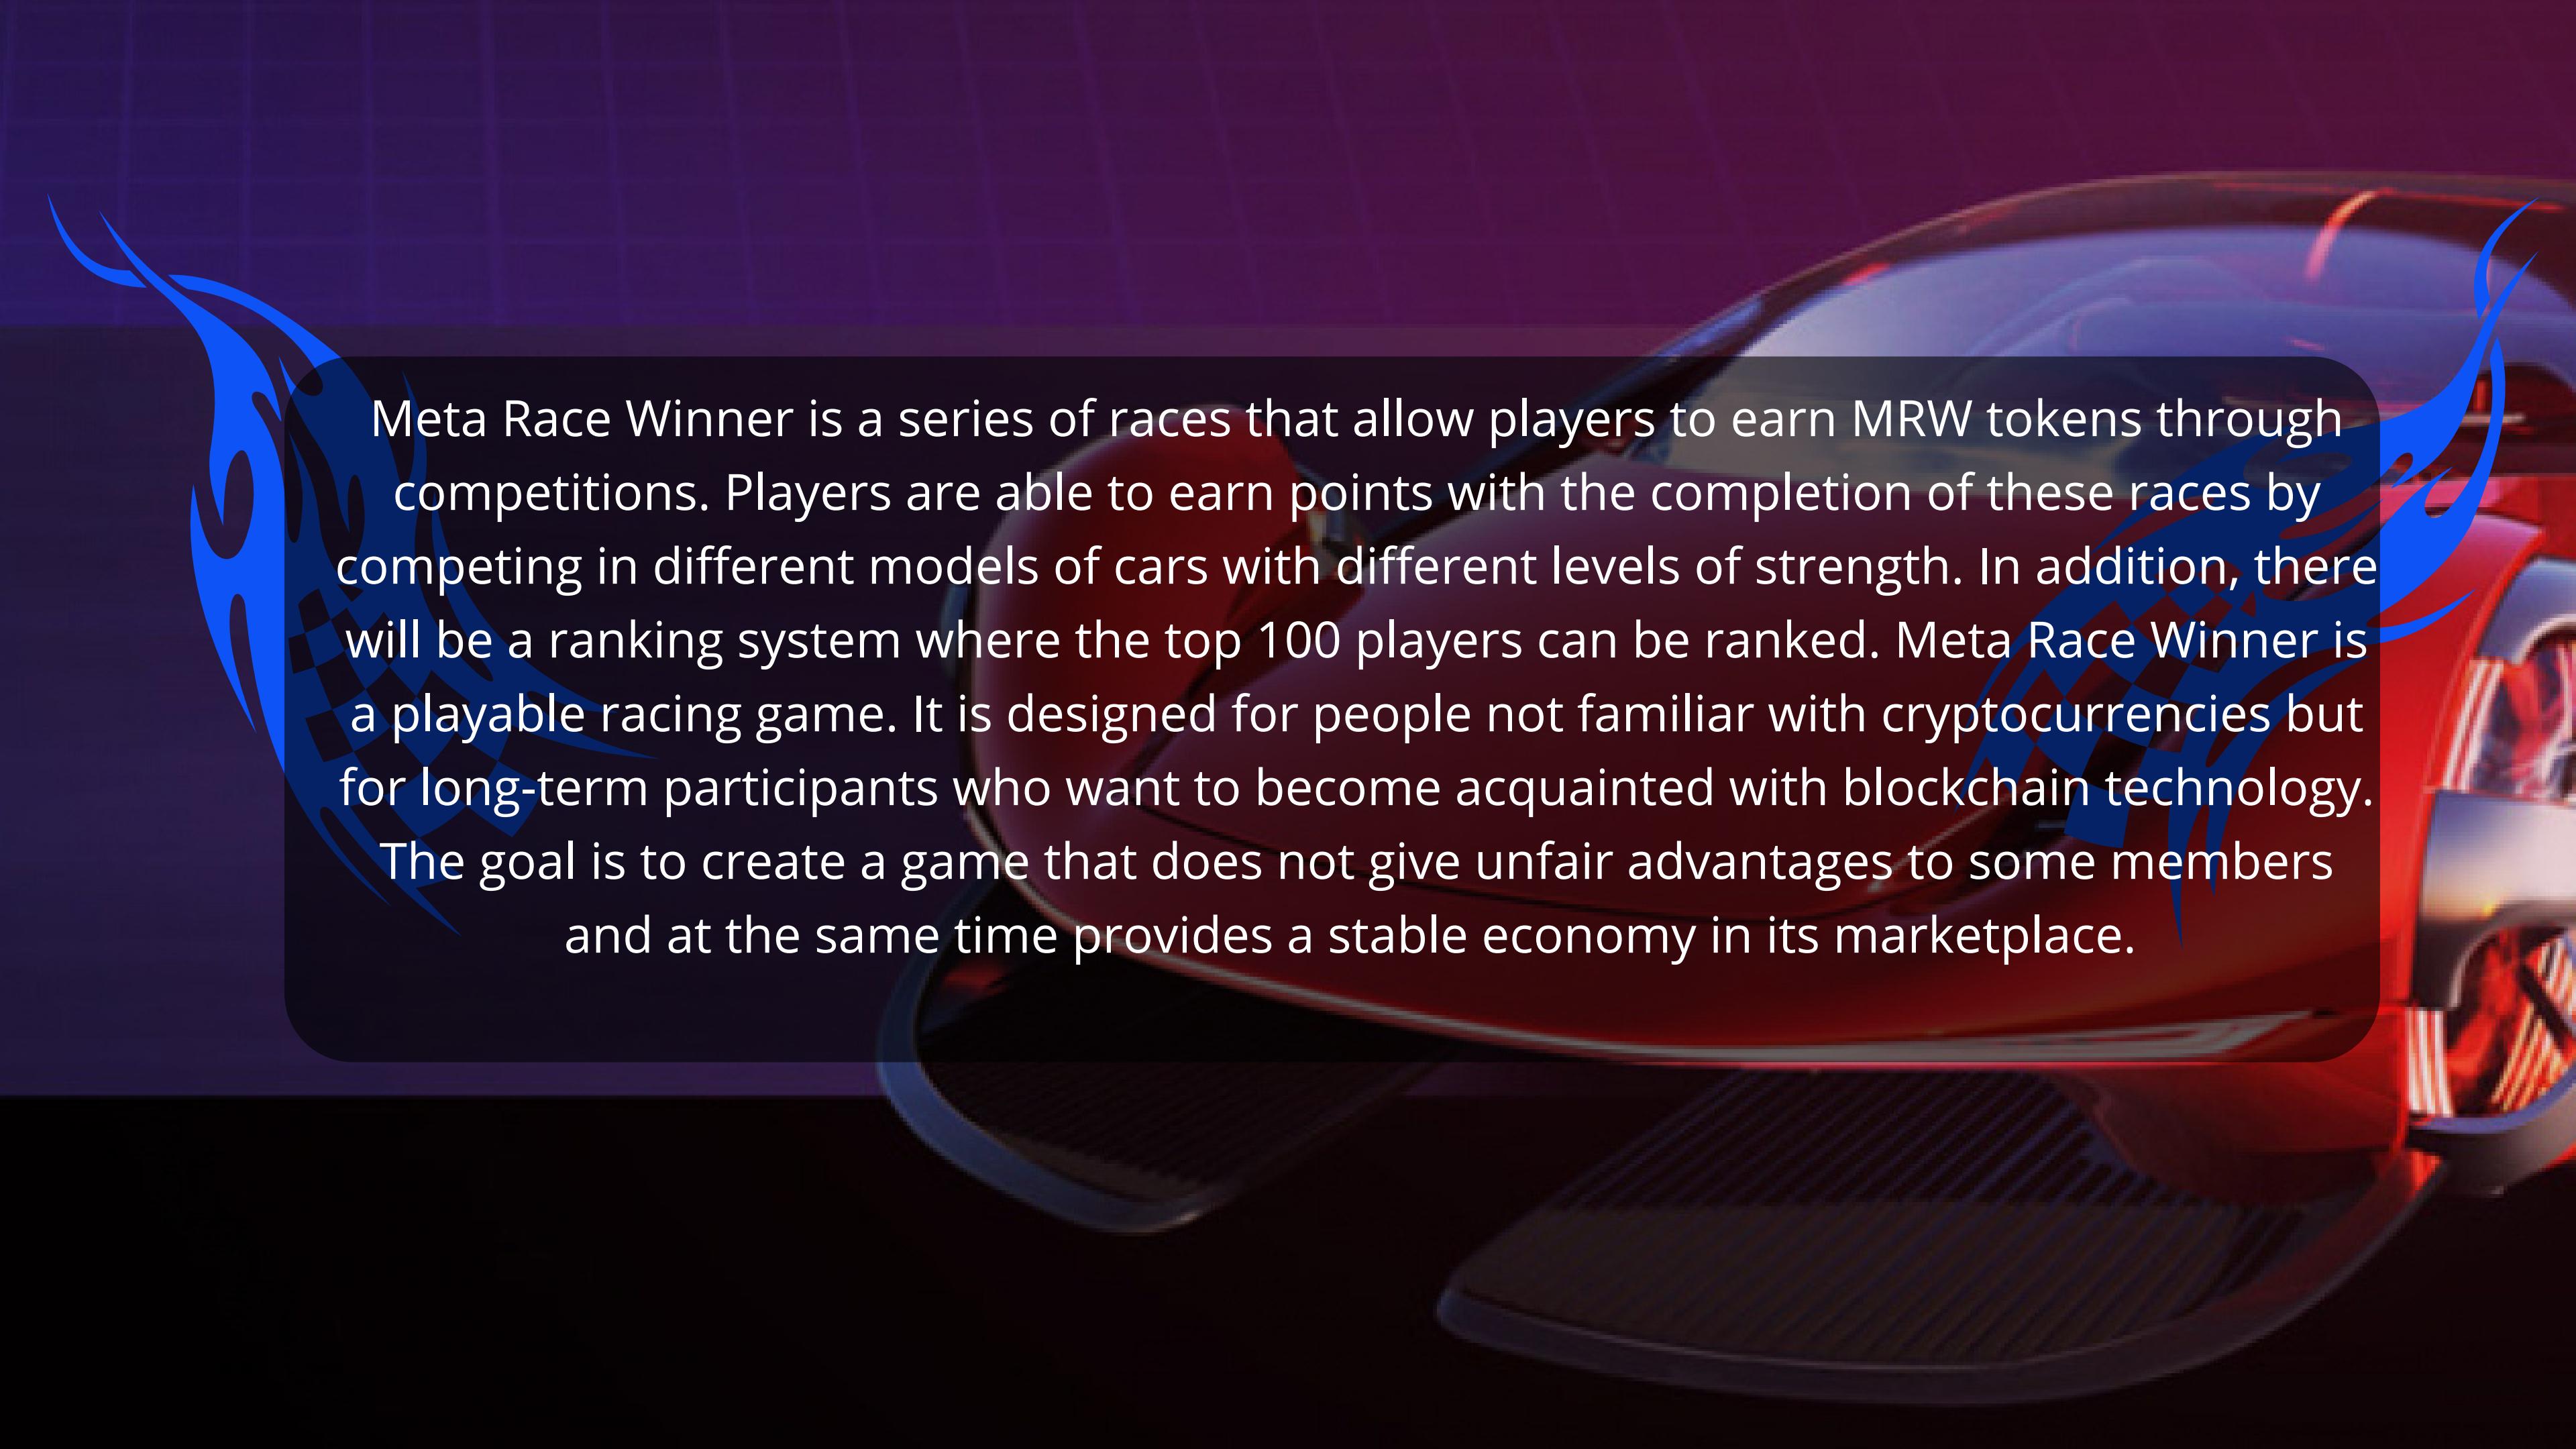

The Idea of Meta Race Winner was the brainchild of two friends James Gopal and David Godrey reminiscing about their love for Cars & playing racing games, like Tokyo Extreme Racers & Need for Speed.

So the founders James Gopal and David Godfrey took their combined skills & knowledge about business & racing and to one of the best Branding, design & Animation companies. They turn a dream into reality.

Their idea brought up the Meta Race Winner ecosystem.

Meta Race Winner is a series of races that allow players to earn MRW tokens through competitions. Players are able to earn points with the completion of these races by competing in different models of cars with different levels of strength. In addition, there will be a ranking system where the top 100 players can be ranked. Meta Race Winner is a playable racing game. It is designed for people not familiar with cryptocurrencies but for long-term participants who want to become acquainted with blockchain technology. The goal is to create a game that does not give unfair advantages to some members and at the same time provides a stable economy in its marketplace.

The goal of Meta Race Winner is to provide a fun and transparent way for people to get real world rewards by engaging with our game.

Meta Race Winner comes to incentivize players and promote the use of cryptocurrency in daily life. We offer more than just an educational experience with games, this is real-life incentive. We believe in fairness and integrity. By sharing control of the environment over to the players, we hope that you will become more engaged and find it easier to learn about blockchain technology.

HOW TO RACE?

First, User need to purchase NFT to participate in race using MRW token or own at least 1k MRW token in your wallet to enter/watch our entertainment race.

SHORT

5000MRW(1ST)

3000MRW(2ND)

OUR NFTS

Non-fungible tokens (NFTs) are cryptographic assets on a blockchain with unique identification codes and metadata that distinguish them from each other.

Unlike cryptocurrencies, they cannot be traded or exchanged at equivalency. This differs from fungible tokens like cryptocurrencies, which are identical to each other and, therefore, can serve as a medium for commercial transactions.

We have unique collection(Meta Race Winner) of NFTs (Cars) that will be used by our players to participate in a race. User can mint/buy nfts and trade

6 CARS

M LUX

MAX SPEED: 500KM/HR
BOOST SPEED: 1000KM/HR
REPAIR FEE: 10 MRW
REPAIR TIME: 3S
BREAK LATENCY: MEDIUM
Ultra feature: It gives you extra boost fuel. So if you are in race with 1 boost, you can use 2 boosts in the race.

M CET

MAX SPEED: 600KM/HR
BOOST SPEED: 1200KM/HR
REPAIR FEE: 8 MRW
REPAIR TIME: 3S
BREAK LATENCY: VERY HIGH
Ultra feature: You can reduce break latency to very low using special fuel CETFU. Really amazing? Try this car then.

M COP

MAX SPEED: 470KM/HR
BOOST SPEED: 1000KM/HR
REPAIR FEE: 10 MRW
REPAIR TIME: 5S
BREAK LATENCY: VERY LOW
ULTRA FEATURE: EASY CONTROL. THIS CAR IS HEAVY SO IT PROVIDES EASY CONTROL FOR USERS.

M SPO

MAX SPEED: 550KM/HR
BOOST SPEED: 1100KM/HR
REPAIR FEE: 5 MRW
REPAIR TIME: 3S
BREAK LATENCY: HIGH

Ultra feature: You will get one time skip repairing during match. It doesn't even require repairing fee.

M HEL

MAX SPEED: 500KM/HR
BOOST SPEED: 1000KM/HR
REPAIR FEE: 5 MRW
REPAIR TIME: 3S
BREAK LATENCY: LOW

Ultra feature: Fast Boost. If you hit corners or walls in the race, the speed will go to nearly 0. The route is very complex and you will get many benefits if you have this car.

M SED

MAX SPEED: 450KM/HR
BOOST SPEED: 1200KM/HR
REPAIR FEE: 10 MRW
REPAIR TIME: 1S
BREAK LATENCY: MEDIUM

Ultra feature: This provides really quick repairing time during race.

MASAFE

FEATURE: THIS WILL
REDUCE BREAK LATENCY.
PRICE: 20 MRW
NEED FOR RACE : 2/4/8/20

CETFU

FEATURE : THIS WORKS
WITH ONLY M CET.
PRICE : 15 MRW
NEED FOR RACE : 1/2/4/8

MIGNIT

FEATURE : NORMAL
PRICE : 10 MRW
NEED FOR RACE : 1/2/4/8

MABOOST

FEATURE : IT PROVIDES
BOOST SPEED ON RACE.
PRICE: 10 MRW
MAX USE IN RACE : 2/3/4/6

HOW TO EARN

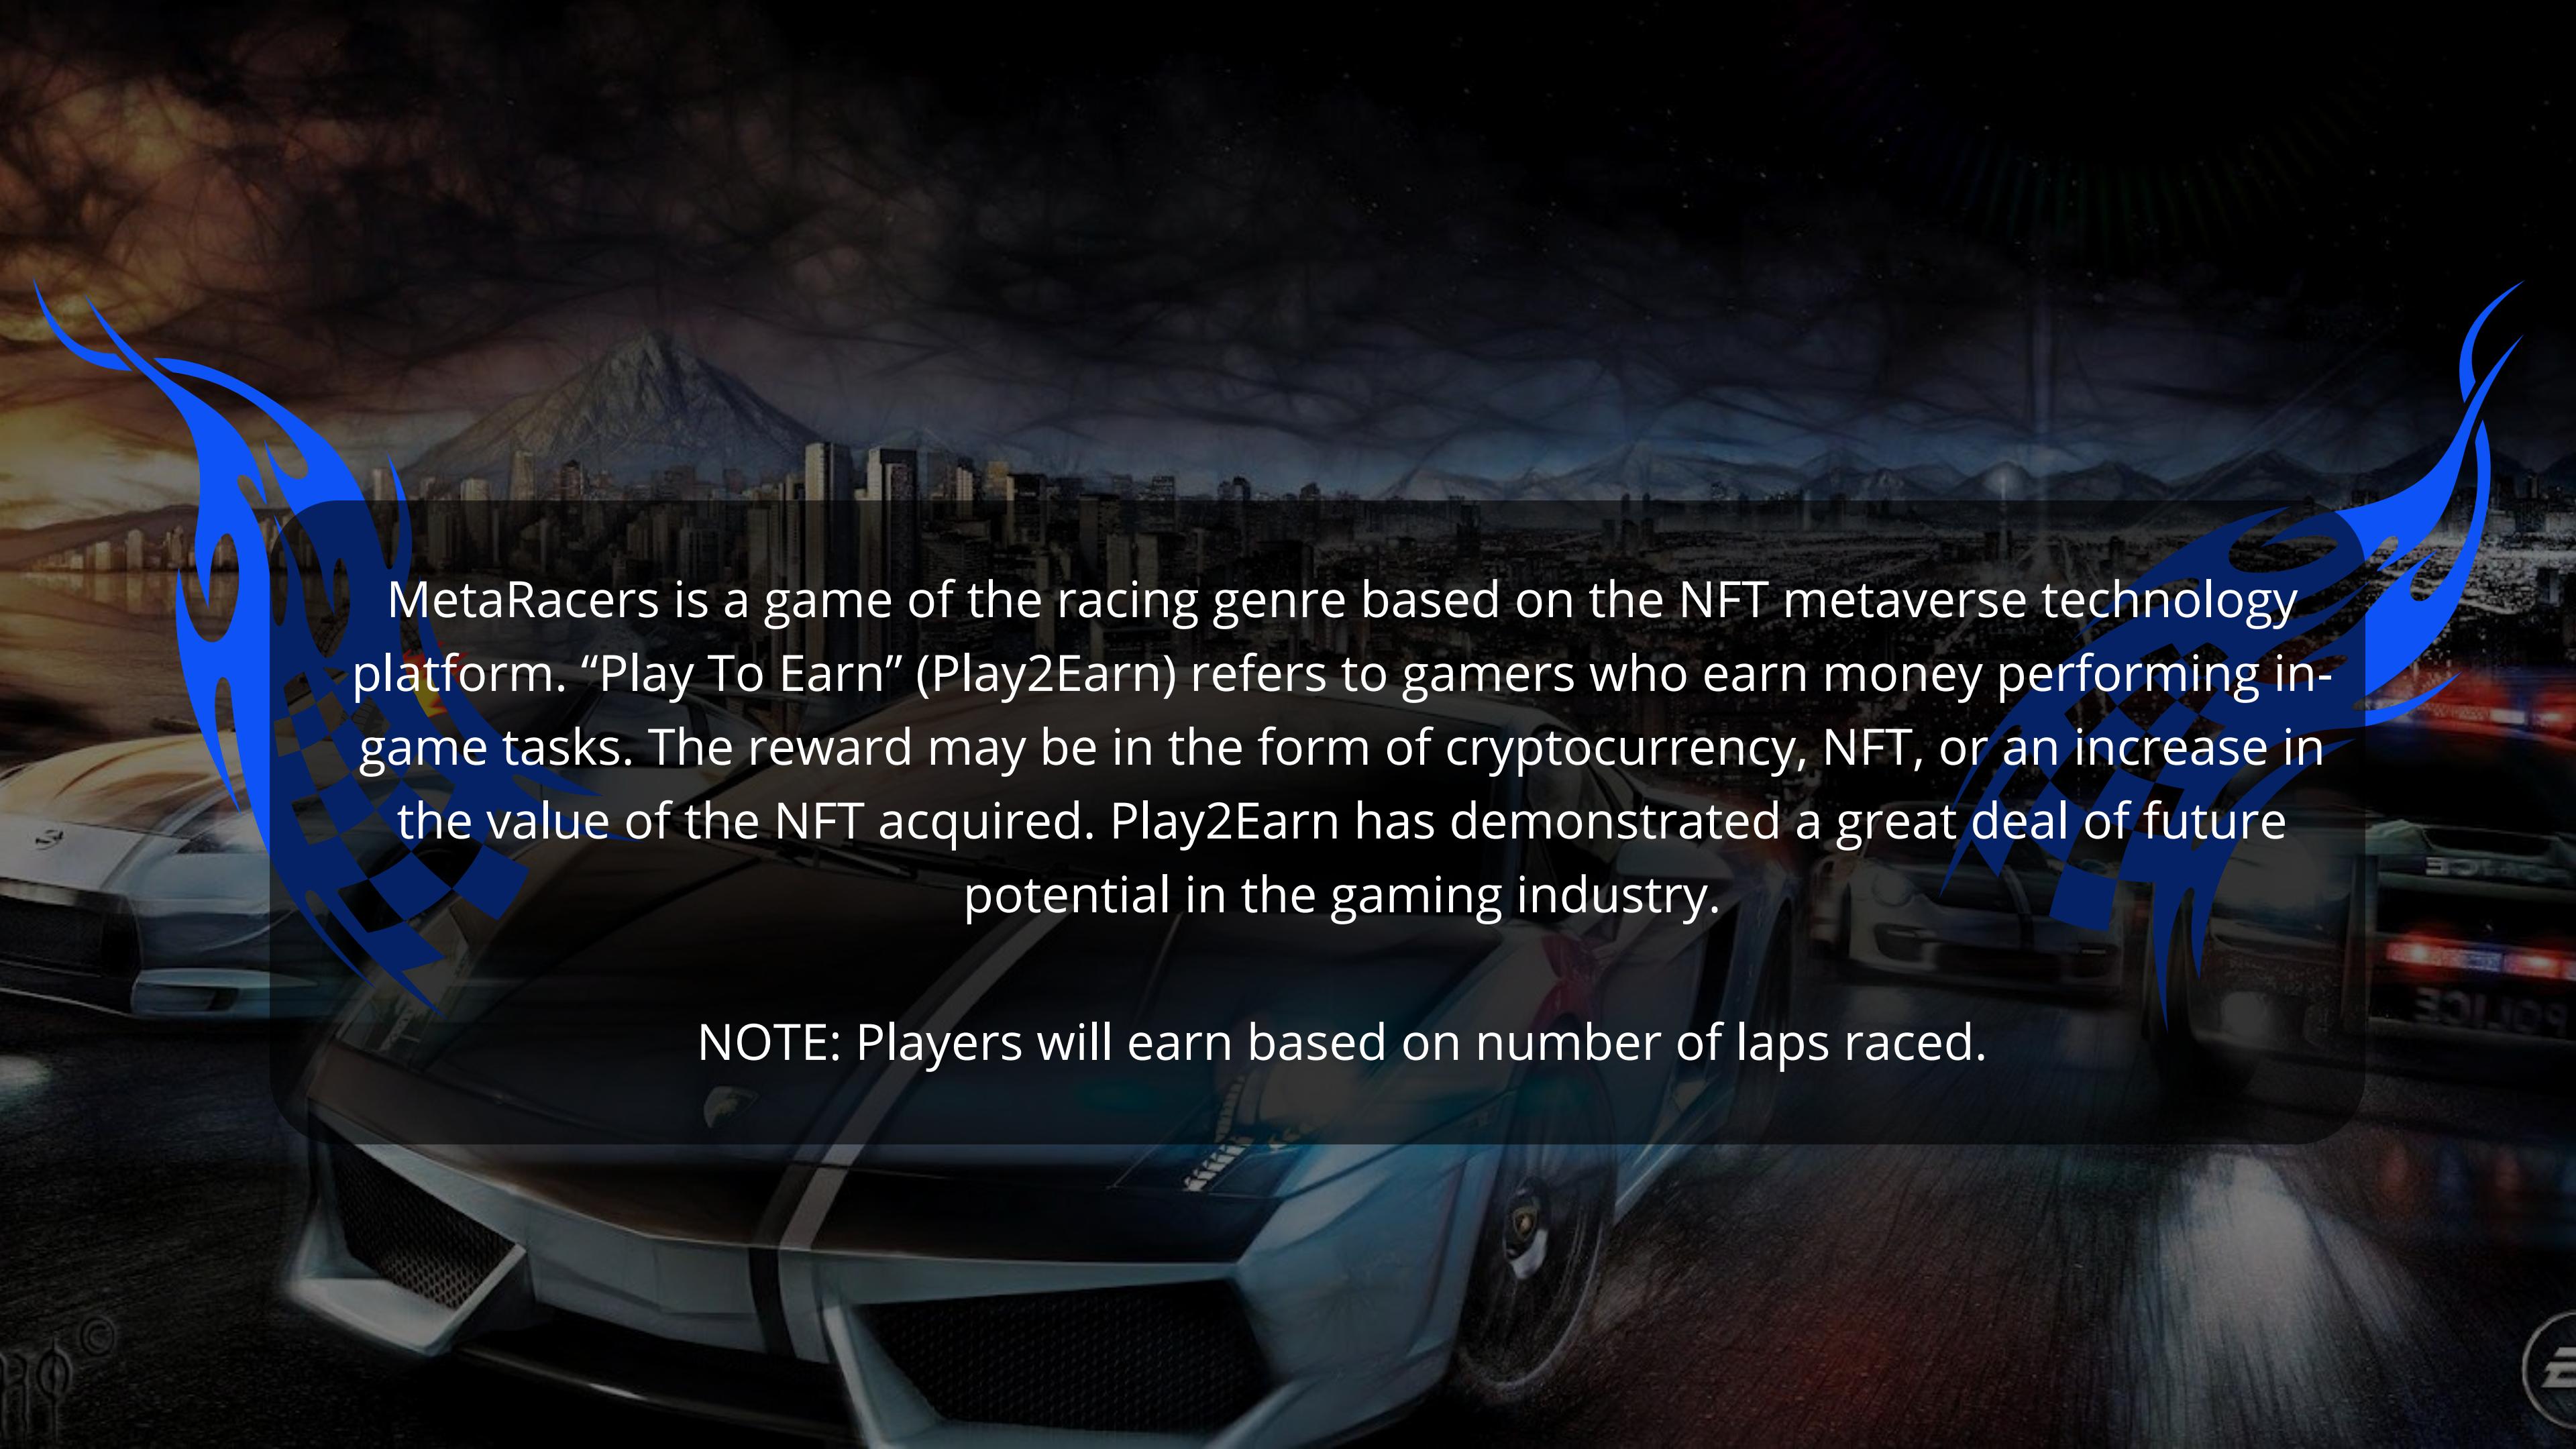

Based on the number of laps you've driven and the length of the tracks, you will earn MRW tokens. Players can earn through:

RUNNING ALL RACE

ATTENDING SPECIAL EVENT

WINNING A RACE

HOLDING A RANK

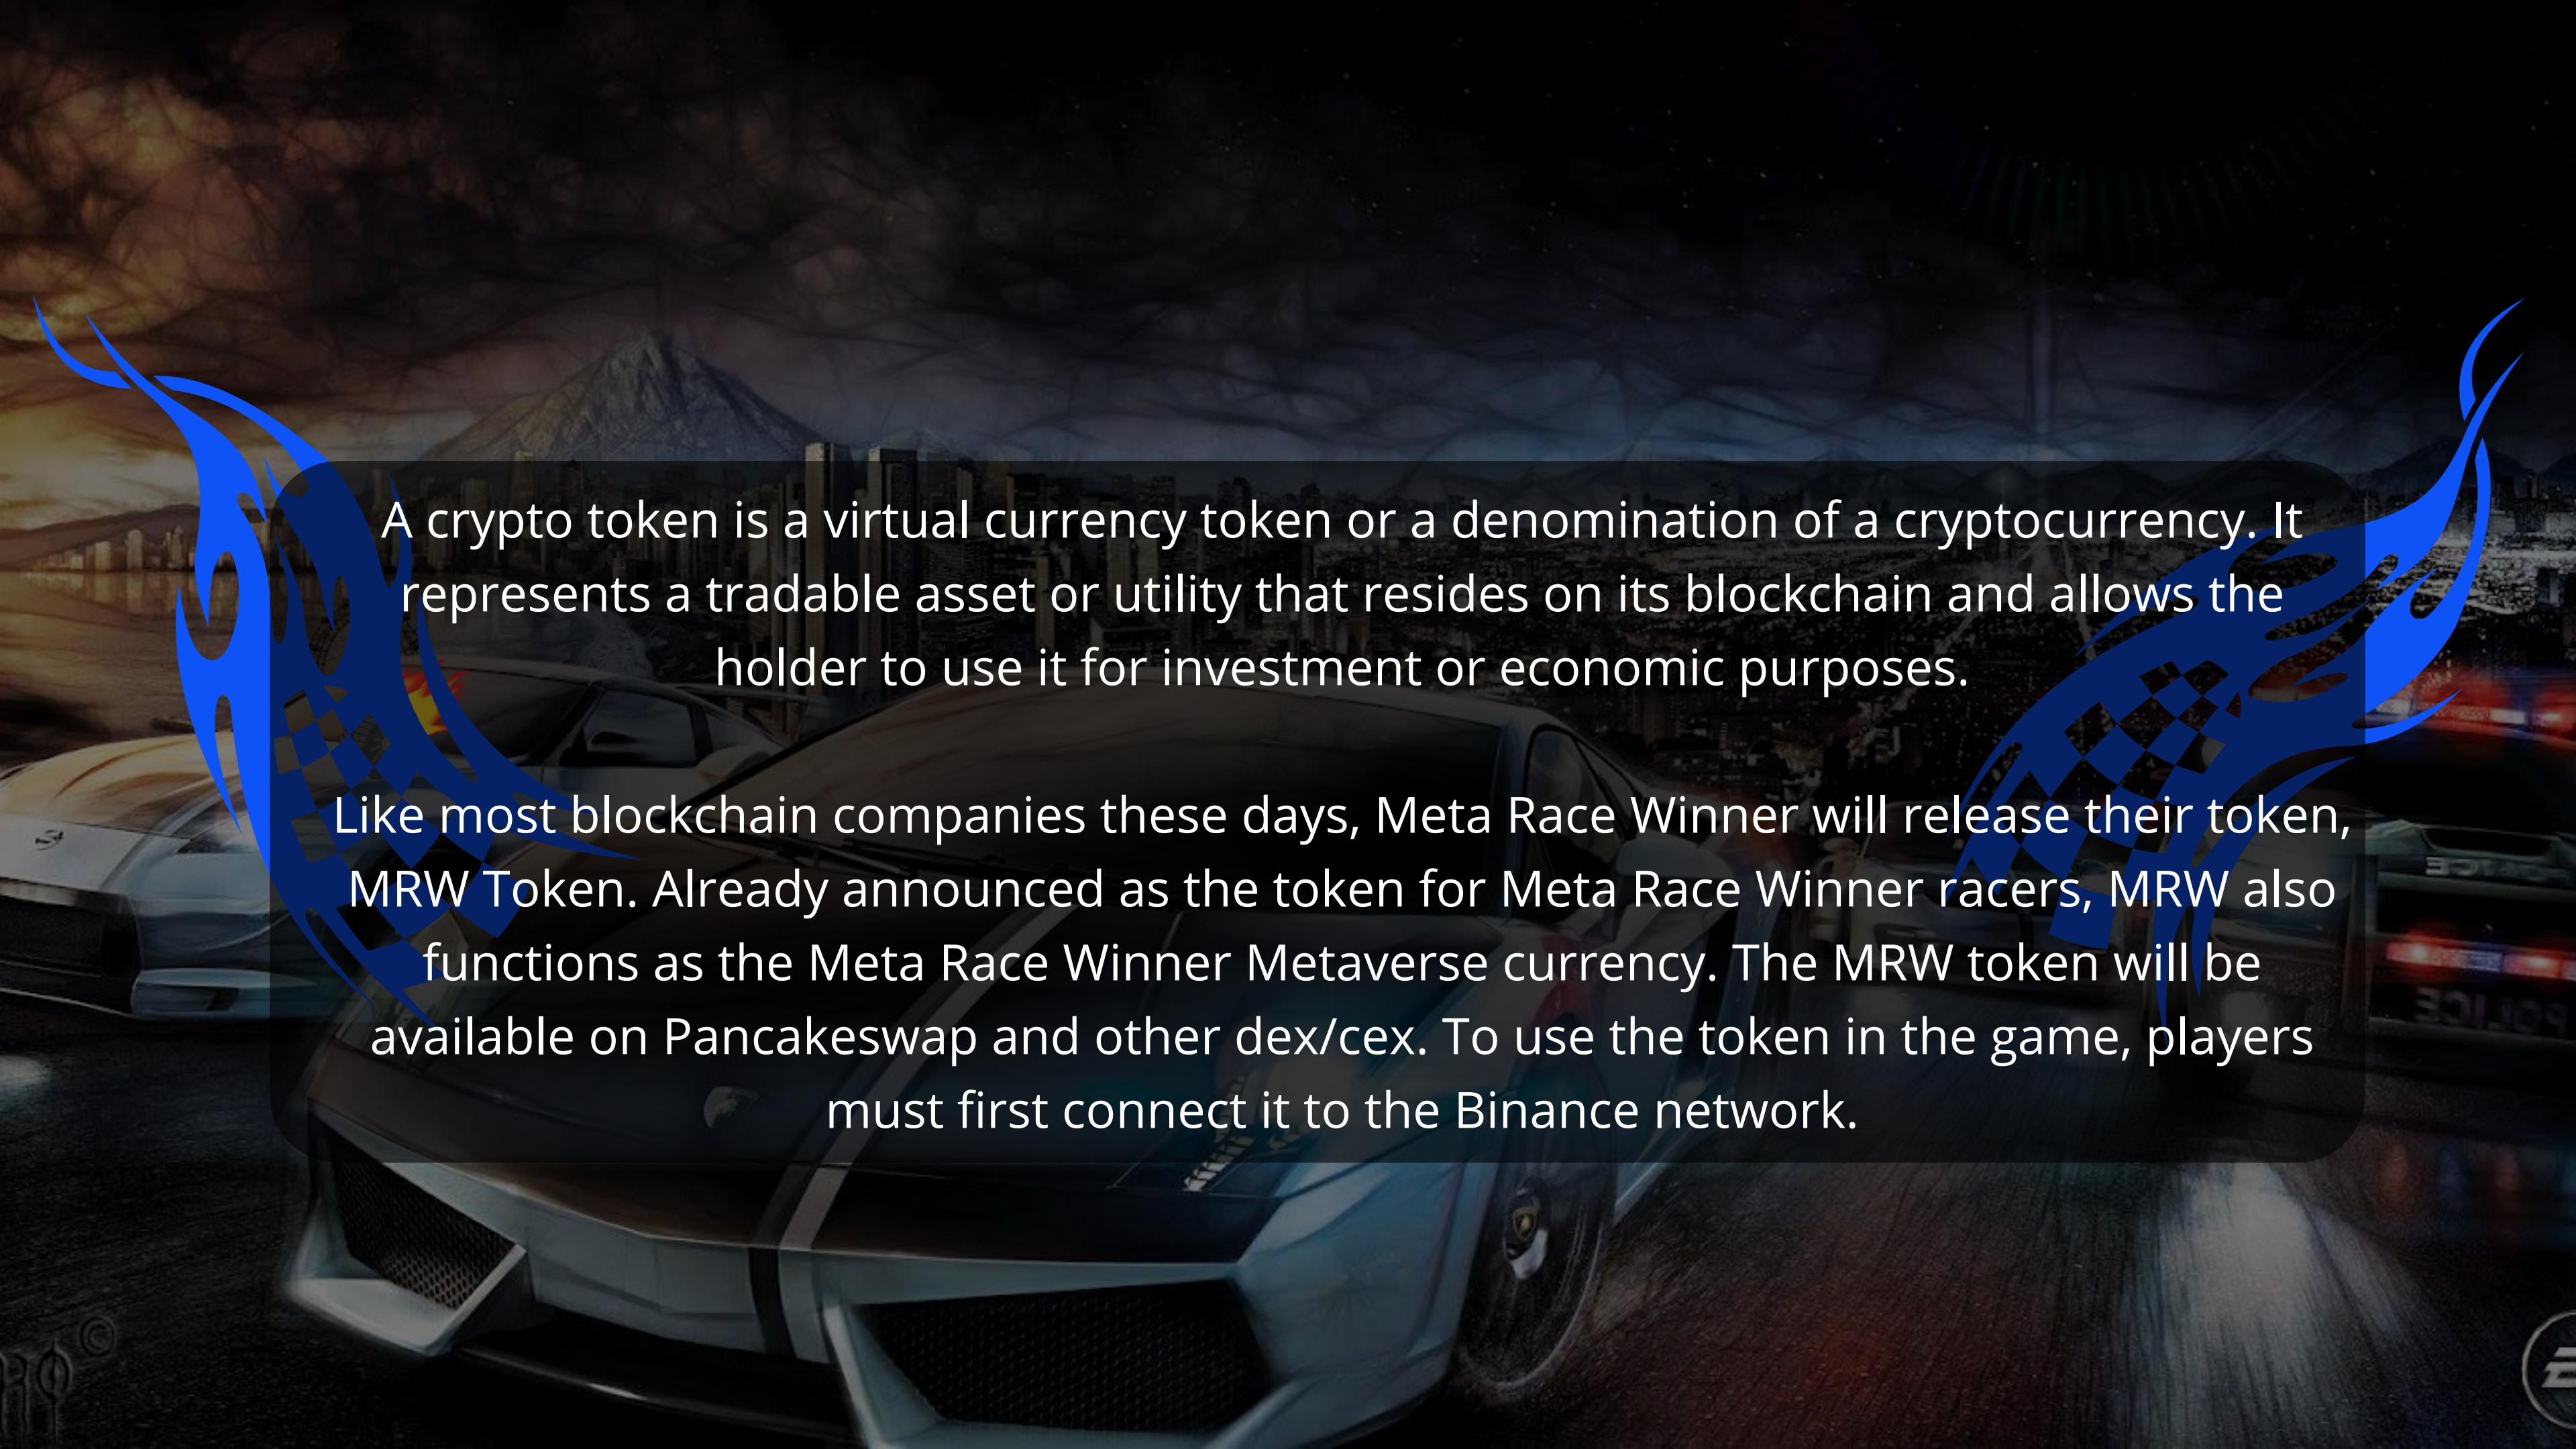

MetaRacers is a game of the racing genre based on the NFT metaverse technology platform. “Play To Earn” (Play2Earn) refers to gamers who earn money performing in-game tasks. The reward may be in the form of cryptocurrency, NFT, or an increase in the value of the NFT acquired. Play2Earn has demonstrated a great deal of future potential in the gaming industry.

NOTE: Players will earn based on number of laps raced.

TOKENOMICS

A crypto token is a virtual currency token or a denomination of a cryptocurrency. It represents a tradable asset or utility that resides on its blockchain and allows the holder to use it for investment or economic purposes.

Like most blockchain companies these days, Meta Race Winner will release their token, MRW Token. Already announced as the token for Meta Race Winner racers, MRW also functions as the Meta Race Winner Metaverse currency. The MRW token will be available on Pancakeswap and other dex/cex. To use the token in the game, players must first connect it to the Binance network.

MRW TOKEN

Purchasing Cars

Renaming cars

Fixing Car parts

Buying Fuel

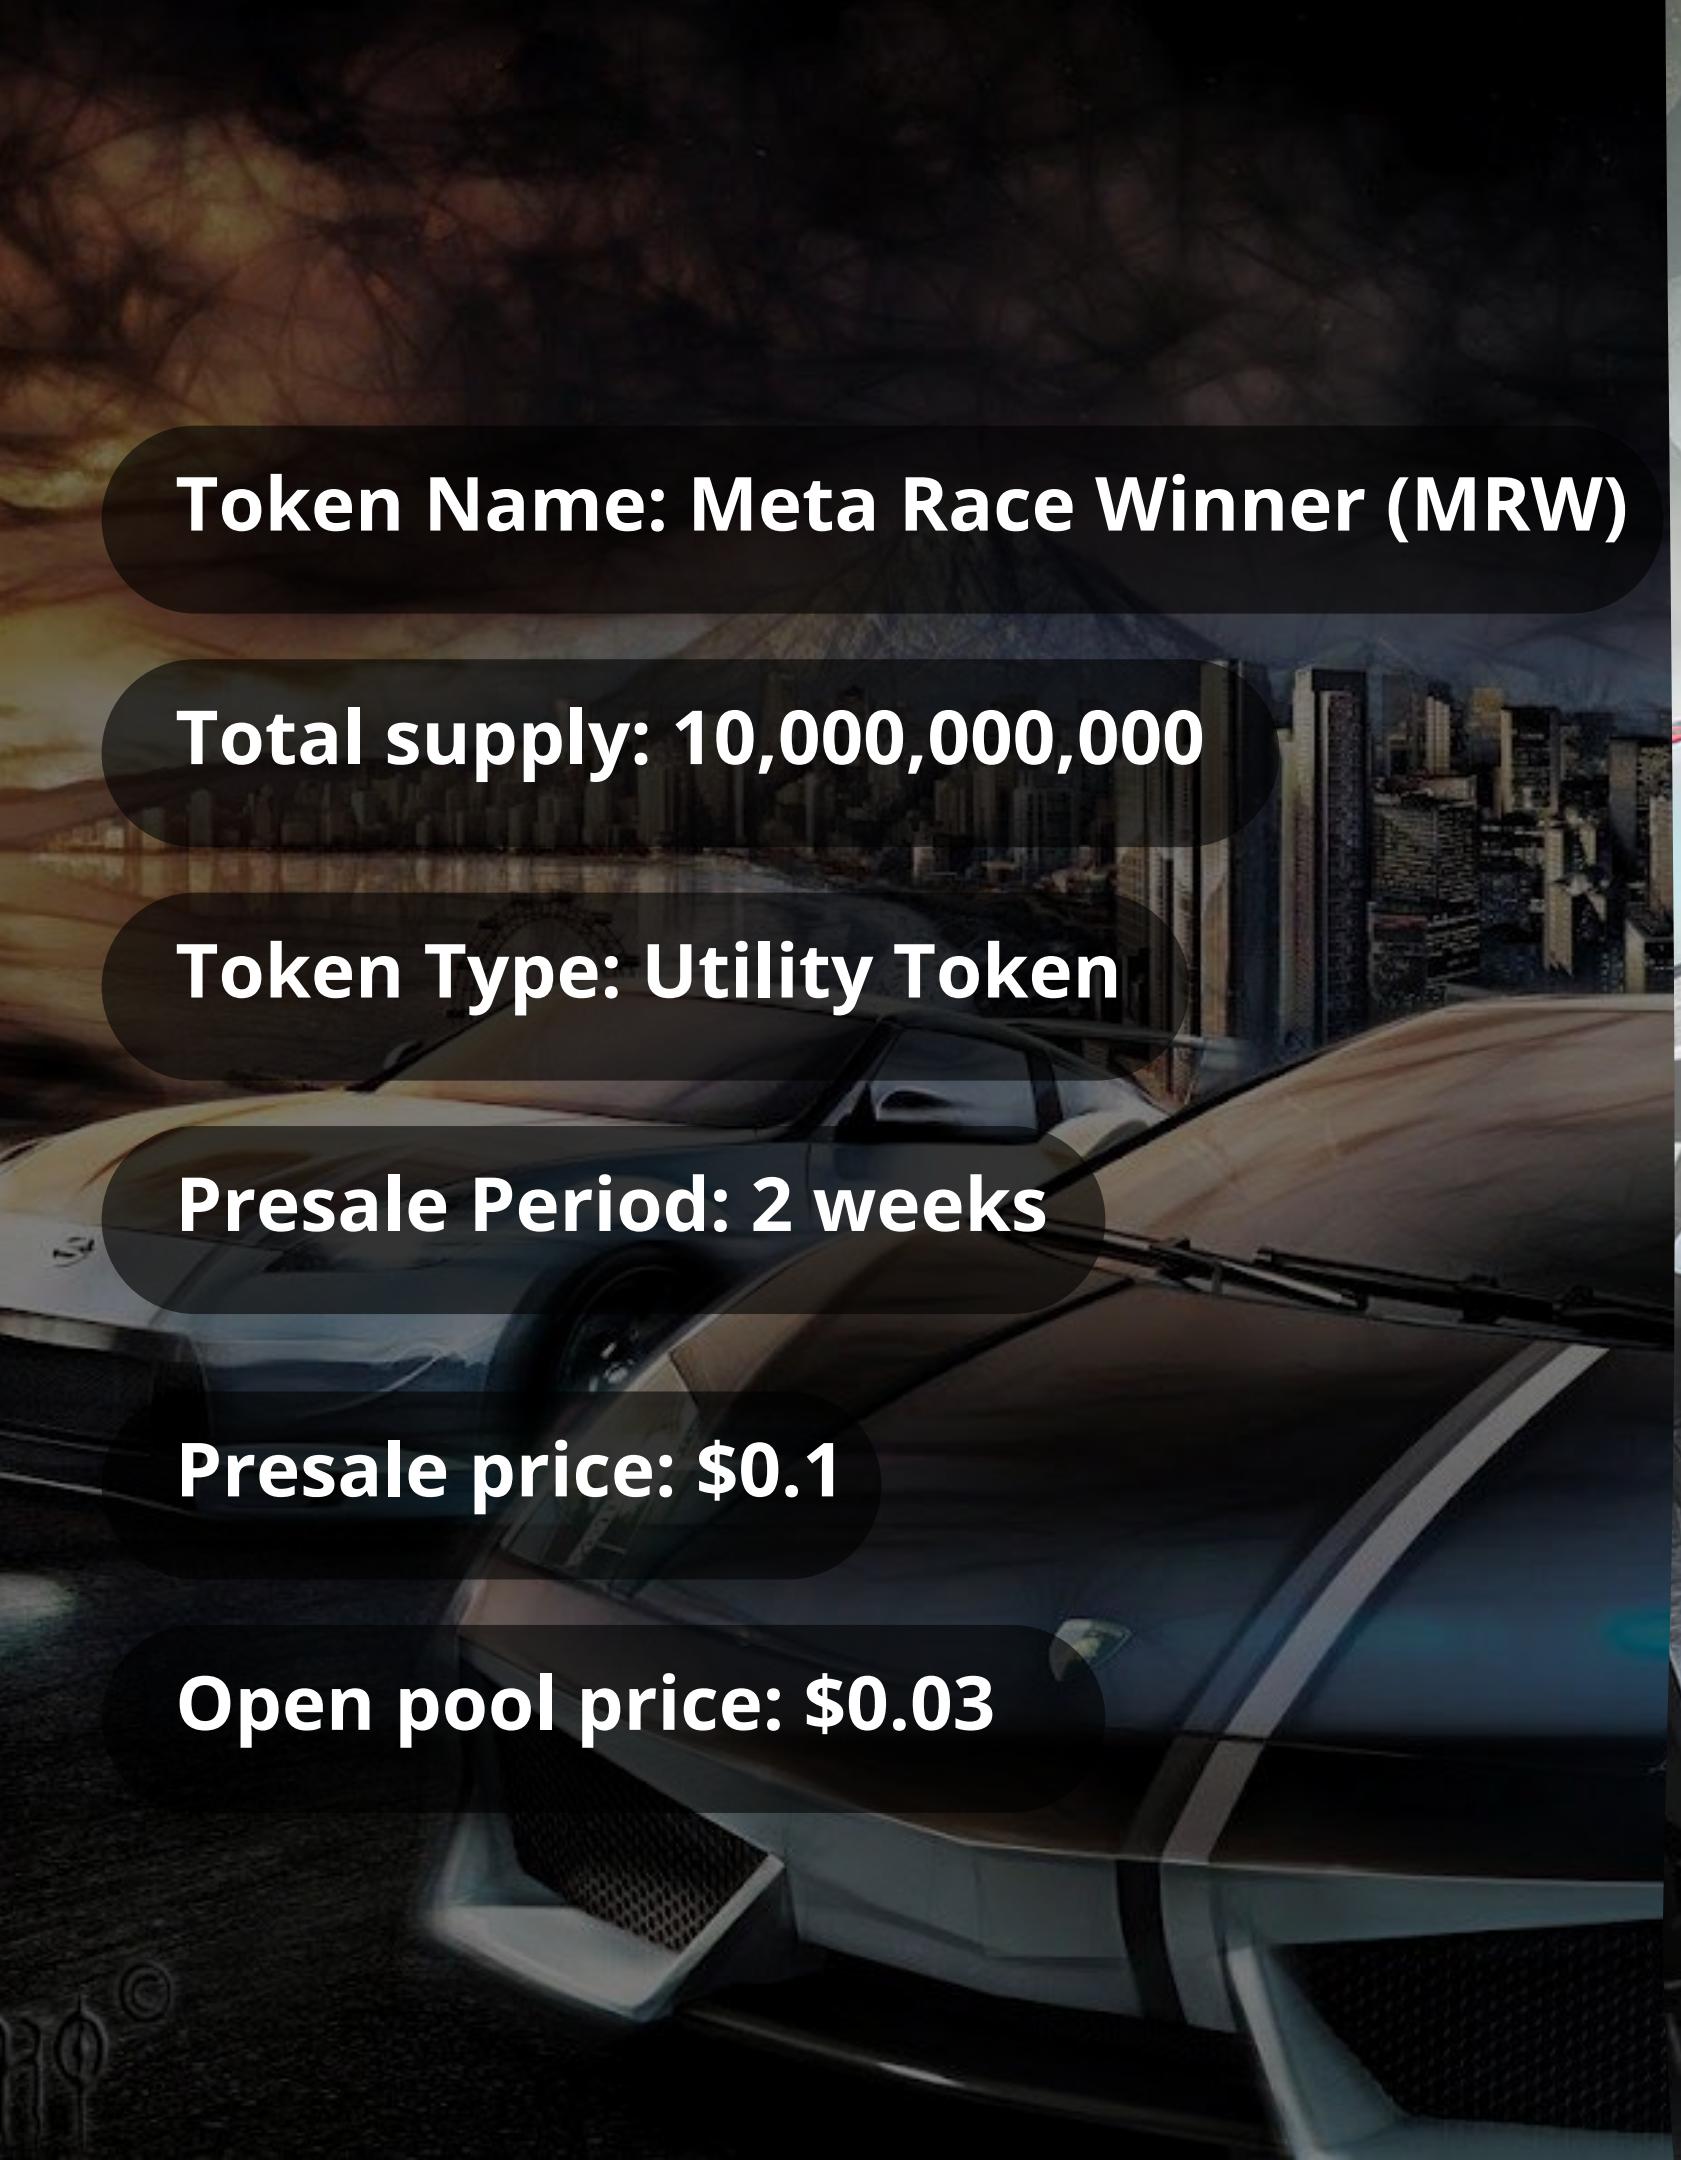

Racing fees

Participating in game

Vehicle upgrades such as new engines or tires.

Players use these tokens to upgrade their vehicles. Players can now earn MRW tokens simply by racing! There is no need to win or even place! Players earn based on Laps as discussed in the How to race section.

Token Name: Meta Race Winner (MRW)

Total supply: 10,000,000,000

Token Type: Utility Token

Presale Period: 2 weeks

Presale price: \$0.1

Open pool price: \$0.03

STAKING SYSTEM

We will have 2 staking systems to give passive income for our MRW lovers.

- MRW Token Staking

Token will be locked for 2 weeks to keep stable token supply in our echo system.

We will start with initial APR 50%.

- MRW NFT Staking

If you hold our NFT on your wallet, you will get reward based on auto-calculation by our smart contract.

LOTTERY SYSTEM

Everyone has opportunities to participate in lottery pools for upcoming races.

We will share details for this lottery in the coming future, but it will give big rewards to winners.

Any user who holds MRW token in their wallet can participate in our prediction lottery with depositing their token to specific car to win.

The reward will be calculated based on total and your individual deposits.

Q1: August - September 2022

- Team set up
- Grow Community
- Marketing
- Token Presale and Dex Listing
- Game Beta Version Release
- NFT Presale
- Open NFT Marketplace
- Token Staking Pool

Q2: October-December 2022

- Game V1 Release
- NFT Staking
- Listing on 2 more Dex
- Contract Audit on Certik
- Partnerships
- Add new car models

Q1: January-March 2023

- Grow Development Team
- Government Regulation
- Move to Metaverse
- Build our NFT club land
- Lottery Plan and Implement

Q2: March-June 2023

- Marketing plan
- Game V2 Release
- Innovation on car upgrade system
- Coach for racers
- More
